FLEES TO CONVENT TO ESCAPE PURSUER.

Violet Chitty Madly Loved by Her Own Sister's Base Husband.

Dr. Marchant Follows the Girl from Ohio to Les Angeles, After Threatening to Murder His Wife. Sensational Attack on Brother's House-Police Drive the Doctor Out of City.

For this love the doctor, accompanied by his wife and little girl, has pursued the young woman nearly across the continent; a home has broken, murder has almost been done and the author of this desolation is a

Yesterday morning Miss Violet sought refuge from her too ardent lover's attentions in the Sacred Heart Convent on Pico Heights. Yet in the calm of that sanctuary the young woman's turbulent heart yearns for the doctor; she loved her sister's husband with all her soul.

chant, a prominent physician of Central Ohio, fied from Los Angeles to escape arrest.

The most unusual part of the story is that on Monday afternoon Mrs. Marchant and her sisfer, Miss Violet, urged the doctor to either allow his wife to get a divorce and marry Violet of refinement and, until the last week, devoted to him with all her strength.

Dr. Marchant's frantic passion for his wife's younger sister led him the verge of murder, the crime being frustrated by the action of the Los Angeles authorities. He made a flendish attack on her brothter are the witnesses to his perfidy, he having strangely brought them across the continent in his insane chase after the girl whose life he has ruined. Marchant was for a long time in ignorance.

A stolen kiss revealed to the wife her husband's treachery and the fearful bent of his affections. It wasn't aitogether the kiss but the blush and frightened look that Miss Violet cast sround. Mrs. Marchant knew the whole story then as clearly as though each of the guilty lovers had made an affidavit.

THE CAPTURE.

The little family reached Los Angeles a week ago, and took apartments at No. 206 West Tenth street.

Though the devoted wife was heartbroken, and even the little girl pleaded with her father to "be good to mamma," Marchant's first thought was of Violet.

When his love for the girl and his desire to be with her could not be curbed he made himself "unnatural" with whisky, and left his wife to pity him for his unfortunate appetite rather than hate him for his base treachery. Miss Chitty was overcome with joy at seeing her lover, though in the greatest anguish at having the terrible problem to solve again, told him for God's sake to leave her forever. There was a scene of tears and threats at that first meeting. And then the young woman made the final vow which has placed her beyond the doctor's power. She told him that she would never see him again. And except for conferences in which Mrs. Marchant took part she has kept her

GOT THE CHECK. On Tuesday morning he asked his wife to give him a check for the amount. She inquired if he needed it. He said no, but he wanted it, anyway. She refused to comply with his wishes, foreseeing at that time an eventual separation from her husband, and fearing that she and her girl would be left on the world without any resources or forced to go back home to her parents, something that her pride would not permit.

ON THE WING.

Two months ago Miss Chitty decided to tear herself away from the doctor and the importunities to which she knew she must at length yield. She told only her sister of this resolution and she found a loving ally. Dr. Marchant was kept in ignorance of the plans that meant so much to him.

Without reproach, Mrs. Marchant got her sister ready and saw her off to Los Angeles. Miss Violet arrived here a month ago, and made her home with her mother and two brothers. Islaude and Frank, who have ben here nearly a year, at No. 1010 South Grand avenue.

When the doctor learned of Miss Violet's departure—he was hiving with her parents at the time—he made up his mind as quickly as he could give a gasp of astohishment, that he would follow her.

After being caught in his lover-like attitude, the doctor did not attempt to deny his infatuation. Still, he said he only loved the girl when he was drunk, which happened quite frequently. This excuse of drunkenness caused Mrs. Marchant to endure.

Without means the doctor might have felt himself baffed, though he himself is authority for the statement that he would follow the felt himself is authority for the statement that he would follow the liminself is authority for the statement that he would follow the girl to the North Pole in his bare feet—when he is drunk.

Having disposed of all his property except the farm, and sold file practice, Dr. Marchant left Milledgeville.

He forced his wife to sign all the documents necessary to the transfer of most of the property, and placed \$1600 in the bank to her credit.

He had gained his information of Miss Violet's whereabouts only by threats of murdering his wife.

In Kansas City on the way out the doctor thought he saw his inamorata walking a block away. Leaving his wife and daughter, Iris, he ran after the young woman. She turned a corner. He redoubled his speed, but when he reached the street down which she had gone the supposed Violet had she appeared.

The doctor was frantic. He ran into buildings, inquired of passers-by, and at last rushed into a big business block. He saw the young woman about to take the elevator. It was not his love.

He reached the depot just in time to catch the train, and accused his wife of trying to deceive him about her sister.

SERGT. HARRIS HOT.

Sergt! Harris was much perturbed by the latest turn in the case, when seen last night.

"He was afraid to so into court, that's all there is of it," he exclaimed. He has got all that money stowed away, we're satisfied of that. We were rearly to make it hot for him, and he knew it. We intend to go to the bettom of the matter, and we will not be put off. Nothing will satisfy me but the money.

"Why, he told me he was loaning money on city and county warrants, and now we understand he never haff any such business. He did not tell me he was speculating in copper stocks with my money, and I don't think he ever did at all. He never lost any-thing that we can find. We have the deadwood on him right, and if we wanted to press it we could proposente him for obtaining money under false nreteness. He was afraid to so on the witness stand in a United States court and swear to the story he told us, for the fear of the pen for perjury. "I 'lon't know what the precedings will be now that he has withdrawn his petition. A meeting of the creditors is scheduled for the 27th of this month."

JEFFRIES'S STRONG DENIAL.

Sergt. Jeffries was thunderstruck by JEFFRIES'S STRONG DENIAL

Sergt. Jeffries was thunderstruck by the open accusations of his creditors, when informed of them last night, and when informed of them last night, and he registered a most strenuous denial. "Why, I have not got a dollar in the world," he protested. "I withdrew the insolvency petition, although through it I would be cleared of every debt, because I came to realize the injury it would do me. I intended to make a desperate effort to pay off all my obligations, and if the people would let me alone, not sue me and tie me up. I believe I could do it in a year or two. That's square, isn't it?

If we not a dollar, and have not transferred or secreted a dollar. I can show where every dollar of the money I borrowed has been lost; I have the papers to do it. It was lost in speculation. As for Harris, he knew I was speculating with his money, and it is strange that he should never have kicked before, as I have had it for about thirteen years. MANUFACTURERS ALARMED.

MANUFACTURERS ALARMED.

Samples of various brateful to the city chemists, Kobig & Fosdick, during the last few days and the reports show that alum is an ingredient in about a dosen brands, according to a statement made last night.

Very little information has been given out regarding the chemical analyses and the Board of Health apparently has adopted a policy of making a very quiet investigation.

It was stated last night that alum has been found in the "K. C." brand, as well as in the Diamond and other powders. Local dealers do not deny that the chemicals have found alum in the powders, but belittle the importance of the discovery. They assert that there is nothing dangerous to health in the powder as prepared.

The eastern manufacturers are somewhat elarmed at the developments, however, and President Jacques of the Jacques Manufacturin Co. of Chicago, which makes the "K. C." powder, is now hurrying to Los Angeles to contest the stand taken by the health authorities.

As the point at issue seems open to question, the Board of Health does not

ontest the stand taken by the health authorities.

As the point at issue seems open to question, the Board of Health does not intend to take snap judgment. It is said that the alum was found in the powder by the chemists several days ago, and as soon as reported to the health authorities the manufacturers in Chicago were informed.

Telegrams were inferchanged, and the board agreed to take no action until Friday, when President Jacques arrives, and possibly not until a later time. ruring a permit.

Every member of the Council received a letter yesterday addressed "To whom it may concern," and signed by Thomas Strohm as Chief of the fire department, recommending the Glenwood brands of fire hose for strength: durability and other qualities. Half-day schools are now maintained in three lunch pavilions on the Fremont-avenue School grounds and two teachers are quartered in the same room at the Friends Church on the corner of Third street and Fremont avenue. She would like to move what desks there are in the pavilions into the new building, but it is not probable that this will be allowed.

All the new rooms in this remodeled building are well lighted. Maple floors have been laid and the rooms are acceptably finished. A question regard.

building are well lighted. Maple floors have been laid and the rooms are acceptably finished. A question regarding the gravity system of heating and ventilation has been raised by the Heatin Department, but the school authorities have great faith that the system will be a success. Four large heaters have been installed in the basement.

At the Ursion-avenue schoolhouse four rooms have been added at cost of about \$800. The Phillips system of heating is used. The rooms have been minished to the satisfaction of the committee except for a few minor details. The Main-street schoolhouse, formerly known as the Harmony school, has a touch of the colonial in its architecture. It is a low building with four school rooms at the corners surrounding a large corridor. The woodwork in the building is regarded as par excellence. There is no heating system in the building, in which half-day schools are now being placed in arrangements for stoves. The building will cost about \$200. It has been built directly in front of the old building, in which half-day schools are now being held. The committee also visited the West Vernon schoolhouse of ten rooms, now being plastered, the new eight-room addition to the Twenty-eighth-street school, and the warehouse now nearing completion at Fifteenth and San Julian. streets.

In all important points the schoolhouse inspected yesterday are to the satisfaction of the Building Committee and of the Superintendent of Schools.

satisfaction of the Building Codmittee and of the Superintendent of Schools.

If the construction of the buildings requires the expenditure of all the bond money it is difficult to see where the Council will obtain funds to furnish the schools. Pending the decision of the Superme Court in the Braun license case, the city financiers are prone to take a reef in the sails of the municipal bark, as an adverse decision in that case might cost the city upward of \$200,000 in revenue.

At present there are 139 half-day schools averaging 40 pupils ench, or a total of \$560 scholars. The total registration in the schools this year is \$3,600, and the average school room now has 48 scholars. The total registration in the schools this year is \$3,600, and the average school room now has 48 scholars. The attendance has been about \$50 per cent. of the registration. The April school census showed approximately \$3,000 children of school age in the city.

It will be seen from these figures that no considerable number of children have been withdrawn from the schools because of the poor accommodations.

With the bond money 146 new school-rooms are being built, and when they are completed the department will be able to give all the children a full school day.

Stevens, one of the "martyrs" of the Free-speech League, a chance to appeal his case to the Superior Court, if he has a hankering in that direction. It was decided to try Stevens and Wheat separately, and the case of the former, after having occupied almost two days of the time of Justice Chambers' was the steven to the liver to the liver. former, after having occupied aimost iwo days of the time of Justice Chambers's court, was given to the jury at 3 o'clock yesterday afternoon. Stevens and his attorney, James T. Rogers, left the court, leaving a request to be called when the jury had agreed on a verdict. They no doubt argued in their own minds that the jury would have a strenuous time of it, and possibly an all-night scance, but, horrors to the wind-Jammer! the Jury only took time enough to cast one ballot, and fill out the blank verdict. In five minutes they were back in court with a unanimous verdict of "guility in maker and form as indicted."

Prosecuting Attorney Beebe announced that in view of this conviction the State would probably ask for a discontinuance in the Wheat case, and the passing of sentence upon Stevens was deferred until Friday morning. At that time notice will be given, if it is decided to take an appeal. The only object in doing so would be to let themselves fall easy, for the point has been decided often and decisively, and the question of the illegality of the ordinance is regarded as the merest bosh.

Playful King Christian.

Here is one of the many stories which show that there is not a monarch in Europe who is as fond of a joke as King Christian of Denmark.

He was recently strolling through the park near the royal castle of Bernstorf, when his attention was attracted toward a child who was making desperate efforts to reach the bell near the principal gate, his intention evidently being to ring it and then run away and engoy from a safe distance the discomfigure of the gatekeeper. For a few moments the King watched him, and then, with a smile on his face, went up to/him and said:

"Let me do it, my boy, and I promise you we'll scare the old fellow."

With these words, he pulled the bell half a dozen times, and in another minute had run across the grass and hidden himself behind a tree.

Hardly had he concealed himself, before the gatekeeper appeared, and the

margy had he conceased nimself, be-fore the gatekeeper appeared, and the expression of surprise on the old man's face was so strong that the King could hardly refrain from bursting out into loud laughter.—[London Answers.

White Sweet Peas.

The home of Mr. and Mrs. William R. Holabird of No. 420 South Alvarado street was daintily decorated hast evening in honor of the marriage of Miss Emeline Holabird to Horace Steadmant Clark. The windows of the room in which the ceremony was held were curtained with ropes of smilax and white sweet peas. Above was a net work of smilax with a veritable shower of sweet peas each being suspended by a hanger of white baby ribbon. Broad white satin ribbons held by members of the bridal party formed an aisle. Red and green formed the color scheme in another room. A huge tent had been erected on the back lawn and converted into an attractive refreshment room, where electric lights shone through White Sweet Peas. formed the color scheme in another room. A huge tent had been erected on the back lawn and converted into an attractive refreshment room, where electric lights shone through Japanese lanters and great tall banana leaves concealed the tent poles. The bridal party made a-beautiful picture as it passed through the ribboned siste, the Lotus quartette softly rendering Mendelssohn's "Spring Song" during the ceremony. The lovely girlish bride was gowned in an exquisite imported robe of white lace, over white taffets and chiffon, with transparent yoke and drooping angel sleeves of chiffon and lace. She wore a bridal veil of illusion and carried a shower of white sweet peas. The maid of honor, Miss Leila Evans, wore a shirred gown of white net and lace, the low neck adorned with soft chiffon roses. Miss Evans carried a bouquet of American Beauty roses. Mr. Clark was attended by George Noble as best man. The other attendents were Miss Dimple Dyas, who was gowned in white, Mrs. R. D. Holabird, Mrs. H. G. How Patent Leather is Prepared

A LL manufacturers of patent leather have their own tanning processes, much like those of the calf-skin tanner, though some patent leather is given a bark tanning. Horsehide and colt skins are the chief leathers made up with a patent finish.

The patent or enamel finish is really painted and baked on, as the bicycle manufacturer paints and bakes enamel on to a frame. Tanners are very particular about keeping their processes secret, and nobody but workmen is ever allowed into the finishing rooms.

The hide or skin, having been stretched and dried as much as possible, is first given's coating of a mixture of linseed

After you have thoroughly cleansed the burner and boiled it also, if the odor remain, send it to the lamp store to have it "doctored." I have thought that some of the needy sisters who cry aloud and spare not editorial sympathies because they can find nothing to do could build up a good business in town and village by studying the maladies and vagaries of lamps and contracting to keep them in order, in a daily house-to-house round.

This is the feeling that makes many mothers seem intolerant of girlish follies and boyash bumptiousness. It is so long to wait for them to work out their own wisdom and for each to suffer in and for herself and himself the consequences of presumptuous ignorance that we gat restive.

WHO GETS THE EARNINGS? It is peculiarly interesting in these days of unprecedented railway earnings to know their disposition, and to ascertain how many people share in their distribution. In pursuit of this information, Mr. Thompson of the General Managers' Association, addressed a letter to the railway companies asking the question: "Are there a million owners of railway securities in the United States." Responses were received from companies embracing more than half the mileage of the country, giving a total number of stockholders amounting to 191,387. Based on these figures it uppears that there are about two stockholders to each mile of road, and applying this ratio to the entire system, it appears that about 400,000 individuals participate in the distribution of dividends. As the funded debt of \$6,109,981,669 slightly, exceeds the \$8,021,20,200 of capital stock, it is fair to assume that another 400,000 are bondholders. In addition it is sug-

the \$6.024.201.295 of capital stock, it is fair to assume that another \$60,000 are bondholders. In addition it is suggested that a considerable number of stockholders are not registered, and consequently the total of capitalists is placed at close to a million. Adding the 1,189,315 railway employes, about two million individuals divide two-thirds of the gross carnings of all railroads, which were \$1,726,380,287 in the fiscal year 1801-2. The other third is expended for fuel, taxes, supplies and equipment. This statement has a certain interests as showing the situation in a general way, yet it has limited statistical value, because the figures of stock and bondholders are based upon 20 per cent. of the total. Further and far more significant is the fact that a large share of those who hold stocks and bonds are carrying more than one security. Investors have learned by sad experience the danger of putting all their eggs in one basket, and in the large majority of cases those having money invest in several different properties.—[Dun's Review.

Concerted action was reported today (Wednesday) among the wholesale produce dealers of the "street" to sell no more Bellefleur apples at "cut" prices. The shipping season is now at an end and receipts henceforth will be very light. In fact, growers were practically cleaned up ten days ago, and now it is thought that nothing but storage stock will be available within the next two or three weeks. Dealers are now asking 1.15@1.25 per box. As usual, prices for the holidays will be much higher. One firm today, in its enthusiasm for lofty figures was willing to state that \$2.50 a box would be secured for some of his storage Bellefleurs along next year some time.

Wainuts were reported very firm today, with prices decidedly on the up trend; shipments are about ended and by Saturday night the last of this year's crop will be rolling eastward. The beginning of the holiday demand for nuts will see prices far advanced over the association schedule; in fact, already the Jobbing market is a cent above those quotations.

Potatoes showed stronger feeling in the local market and the selling price on Highland stock has been marked up from 10 to 15 cents per hundred.

The scarcity of onions on this market today was very noticeable; firms caught short had difficulty in filling or dere with prime stock. This fact made the prevailing price about \$1.25 per hundred.

FREEHOLDER BLECTION OFF.
By a vote of 3 to 1, the City Trustees last night rescinded the action taken the previous week, by whiteh an election was to be called for December 5 to elect a Board of Freeholders to frame a charter for the city. The proposition, first advanced by the Trustees themselves, had been taken reflously, and the Board of Trade, the City Board of Education and the labor council had gone so far as to name their respective choice of candidates for freeholders. But the trustees wixom, Carson and Riley voted yes: Trustee Wees voted no. Trustee Hanford is out of town. The proposition, first advanced by the Trüstees themselves, had been taken seriously, and the Board of Trade, the City Board of Education and the labor council had gone so, far as to name their respective choice of candidates for freeholders. But the trustees experienced a change of mind. Trustees Wixom, Carson and Riley voted yes; Trustee Wees voted no. Trustee Hanford is out of town. The reason given for rescinding the election was that a majority of the taxpayers are opposed to having the city operated under a charter.

Miss Avis Blair was solemnized this morning at 9:30 o'clock at the home of the bride's mother, Mrs. J. E. Blair, No. 622 French street, by Rev. Francis Davies of the Congregational Church, a few intimate friends witnessing the ceremony. Mr. and Mrs. McClain went to Orange by automobile, and there took the train for Los Angeles for a week's stay. The bride is popular in local society, and the groom is a young business man of this city. They were the recipients of many beautiful presents. Judge Oster has filed a judgment in favor of C. O'Donnell, an old miner, the plaintiff in a suit brought against the Santa Fé Railroad Company, which, the court opines, is occupying land at Barstow that belongs to O'Donnell O'Donnell lays claim to a large portion of the town of Barstow, including part of the land occupied by the Santa Féstation and yards. The case will be appealed to the Supreme Court.

PASSING POINTERS.

C. Hansen has awarded to H. F. Wegnori the contract for erecting a handsome residence at the corner of Third and Eighth streets.

Further hearing of the case of the "Reception" saloon at Barstow, the license of which certain petitioners seek to have revoked, and which has occupied the attention of the Supervisors the past two days has been continued to the 23rd inst.

Mrs. D. S. Fratt left yesterday for Atlanta, Ga.

County Auditor Wagner left yesterday on a business and pleasure trip to San Francisco.

Mrs. W. A. Vale and daughter, Mrs. F. Kellar, returned today from an extended eastern trip.

The City Trustees last evening adopting plant, and instructed the clerk to communicate with the Machinery and Electric Company of Los Angeles, the contractors, to seek an explanation as to why the delivery of pipe and theomencement of work has been so long delayed on the new municipal water system. There has already been unexplained delay in the commencement of the work, for which bonds in the sum of over \$200,000 were voted almost a year ago.

Two boys, aged 13 and 15 respectively, were agreeted at Colton last evening.

It involved many intricate legal points relating to fiparian rights.

Many of the newest theater coats are of lace ever cloth or silk, and while charmingly simple in detail, possess a smartness that betokens the Parisian origin. Hand made they are, of Russian silk bradés in lovely designs, showing innumerable lace stitches of many varieties, and rarely more than a little below the hip in length. The one illustrated is black mounted over pale salmon broadcloth which is lined with brocade in the same color. The back is shaped to fall in soft folds below shoulders, and the fronts are loose. The shoulder cape is well rounded up at front, corners finishing under a white moire setrekhan stole, which is embroidered in black and gold and finished at ends with very heavy black chenille fringe. The sleeves are large and full and accordian-plaited black chiffon in two narrow rows border the deep cuff. Another lovely coat of the same character was a soft carth-brown shade made up over accordion-plaited self-tone chiffon with silk under that. This was trimmed with very heavy thingestone buttons in openwork design and brown chenille and bugle fringe. This one was part of an outfit for a Southern trip, as it possessed but little warmth. In making over a black cloth evening coat one of these short lace jackets would transform it into a very Frenchy affair with but little trouble, and one in creamy white would be stunning. The little fur capotes for evening wear are most captivating; one of ermine was coquetishly trimmed with some little pink ostrich tips and a rhinestone buckle. Another in small turban shape with draped brim was of white moire astrakhan and on this at left was a large rosette of applique lace, with one short dangling searf end, held by a rhinestone buckle, which also caught the end of a black osprey that tipped toward front. Mireir and paon velvet hats in the pale tints, with white leading all are made into becoming creations with no evidence of weight, and are dannity trimmed with fowers or feathers or gauge butterflies, jitted or pailletted. When lace is used a little fur may SALT LAKE VICTORY. Meanwhile Claude was sitting in a back room, where the curses and threats of Marchant reached him distinctly. He stood it about as long as he could, and then, picking up a revolver, he slipped around the side of the house and came upon the doctor.

"You have, have you?" blustered the doctor, "Well, I'll show you," and with that he walked up to Claude and attempted to wreat the revolver from him. Afrier a struggle Marchant secured the weapon, but before he could use it, if he had any such intention, two men ran up to the fighters and one of them wrested the pistol from the doctor's hand.

Yesterday morning on the advice of Attorney Brown Frank Chitty swore to a complaint charging Marchant with disturbing the peace. A warrant was immediately issued for his arrest and placed in Patrolman Walsh's hands.

When Mrs. Marchant and her sister appeared at the attorney's office that Morning Brown told them of the warrant. Without revealing her intentions Mrs. Marchant hurried to the apartments at No. 206 West Tenth street, where she found her husband.

Supposing that an officer was even then coming to lead him to Jall, Mrs. Marchant told him about he warrant. He was inclined to disdain her advice to leave at first, but Marchant's fear of public disgrace dominated and he consented to go.

fear of public disgrace dominated and he consented to go.

At the moment when he said the word she had been eagerly awaiting, the wife began gathering up her hust hand's things and packing them in his band's things and packing them in his strunk. By 10 o'clock she saw him off, and it is supposed that he took a train for San Francisco.

It is not believed by members of the family that Dr. Marchant would have consented so readily to go had it not been for a conversation held Monday afternoon between himself, his wife and the young woman of his ardent desire.

desire.

The wife, usterly unable to think of any plan that had not been tried, yielded to her sister's suggestion that the whole trouble be talked over calm-

The doctor, only too anxious to be with Miss Violet, consented to the conference eagerly. The women mapped their plan of campaign out mapped their plan or campaign out beforehand and when the doctor ar-rived they submitted to him these al-ternatives: "Allow Mrs. Marchant to get a divorce by giving her cause for such action, and then marry Violet, or give up your pursuit of the young woman and consent to be a faithful husband."

woman and consent to be a faithful husband.

To make such a proposition to her husband! Involved renunciation on Mrs. Marchaft's part, if nothing more than family pride and the interests of her daughter were to be considered.

Remarkable as it may seem, Miss Chitty, who, according to all precedents under such circumstances—if there ever were such circumstances—would have indignantly protested against her sister's husband beoming her own, volced her sister's pleading. "Come to me or stay with your wife," she urged, "but don't try to love me while your loyality and love should be hers."

In making his decision Marchaut showed himself to be a man of remarkable contradictions. Blindly in love with the younger woman he seemed still to have a rag of affection for his wife. He rejected both propositions and said that 'he would continue to do as he had done. He was utterly intractable.

"Dr. Marchant is a man of the capa-bilities," she said, "but he has been drinking so much of late years that I am afraid he is not himself when he is under the influence of liquor.

"I told him when he left that I could not go back to live with him ever again, unless he proved to me that he is a thoroughly changed man.

"It is only for the sake of my girl that I would ever consent to such a course. Now that my sister is in a course. Now that my sister is in a convent, where she will remain as long as Dr. Marchant is around, I feel much casier and hope that the doctor will come to his sensea."

Mrs. Marchant intimated that she would apply for a divorce, not here, but in Ohio, where the bulk of her husband's property is located.

TOWN IMPROVEMENT.

MONROVIA, Nov. 11,—The City Council last evening took up street improvement. Walnut avenue, between Myrtle and California is to be placed on grade and surfaced with decomposed granite. The following cement sidewalks have also been ordered: Both sides of Primrose street, between White Oak and Olive avenues; on the east side of Lemon street, from Myrtle avenue to California street; on Olive street, from Myrtle avenue to California attent; on Olive street, from Myrtle avenue to Ivy street.

The City Council decided to make a change of street lamps from arc to incandescent side lights. The United Electric Gas and Power Company is making an estimate on the cost of the change. It is thought that for the same money more streets can be lighted.

There has been considerable complaint of the number of tents scuttered about town and the Council has passed an ordinance, making it unlawful to erect or maintain a tent or cloth house for occupancy as a residence without a permit.

Fine Residences—Burning Sawdust in Large Store Yesterday Morning.

Fire was discovered at 4:20 o'clock yesterday morning in a fine barn in the rear of the residence of T. J. Barkley of the T. J. Barkley Company, No. 1137 West Twenty-eighth street, and for a bime several good houses were threatened. The building, two-story frame, was the property of 0. J. Muchmore and is will take 1500 to rebuild it. This loss is covered by insurance. Mr. Barkley had fine mahogany furniture, several cases of books and other property stored in the barn and most of it was ruined. His loss will not exceed \$1000. He carried in on insurance. The fire spread to a small frame shed in the rear of the residence of W. E. Roberts, No. 1134 West Twenty-seventh street and the fiames from that structure scorched the paint off the rear of Mr. Roberts's house. His loss will not exceed \$200. Fire yesterday morning before day-break, is the store of Jacoby Bros., on South Broadway, was discovered. When the firemen entered the store, in which is a stock worth many thousand dollars, they found a box of sawdust used as cuspidor burning. Some person had dropped a lighted cigar into it. Practically no loss.

An overheated vent pipe from a gas water heater caused a \$500 fire in a two-story frame building at No. 254 Clay street at \$20 o'clock last night. The fiames spread between the upper ceiling and the roof to such an extent that the firemen were obliged to turn two engine streams into the place, delaying the house with water. The place is the property of the Edwards estate and the upper from is cocupied by W. H. Bosley and family, the lower by Mrs. H. Hicks, The loss is covered by insurance.

MINES AND MINING. MALGAMATED MAY BUY BLACK WARRIOR MINES.

IMPORTANT DEAL SAID TO BE PENDING IN ARIZONA.

Local Capital Reported to Have Purcassed Silver King Mines Near Globe. Florence to Have Sixty-ten Smelter Fletcher Behind Enterprise.

GLOBE (Ariz.) Nov. 10.—A tale is affloat that the well-known Black Warrior copper properties near Globe are to be sold to the Amalgamated Copper Company, at a price around \$2,500,000. The mine was purchased several years ago by James Fleming of Denver, who has been its manager ever since, though it is understood the controlling interest has passed from him. The ores are of peculiar character and Fleming has spent nearly a million in trying to work them by means of a sulphuric acid leaching process. The process works all right and the copper produced has been right and the copper produced sas been accepted as of the finest possible char-acter, equal to the best lake, but profit

accepted as of the finest possible character, equal to the best lake, but profit in operation has, very apparently, not been attained. Now it is announced that it has been demonstrated that a regular smelting plant will have to be installed, one capable of handling the base sulphiles. Whether this means that the leaching process is a failure is not explained. At clifton the Arlsona Copper Company is operating a leacher in connection with its new smelter and with the best of success. At Clifton the sulphure acid used is manufactured on the ground by means of an enormously expensive plant.

Col. Lee Crandall of Globe is a picturesque example of the olf-school soldier of the Lost Cause. Backed by a number of his former companions in arms, he has secured and is operating a number of mining claims in the Masaizal mountains, the corporation organized being styled the "Confederate Mining Company." There are ten claims, all of them with fair ore showings. On one of the workings has been developed a four-foot body of ore that will run 20 per cent. copper. Small values in gold are also obtained from the one.

values in gold are also obtained from the ore.

G. H. Harn and associates, Los Angeles people, are reported to have purchased three mining claims in Silver King district, a couple of miles distant from the old and famous Silver King mine. The former owners are Tempe men. Dr. C. H. Jones and B. Matley, who are to get \$55,000. The property has already developed merit, several thousand dollars' worth of silver-lead ore having been profitably shipped to smelters.

In the same vicinity lies the Superior mine, believe to be one of the coming great copper properties of Arizona. The main shaft has been drained by means of expensive deep-mine pumps and development work has been recommenced on a large scale.

SIXTY-TON SMELTER. FLORENCE EXPECTS ONE.

Arrangements have been made by W. S. Fletcher for the erection of a sixty-ton smelter at Florence, Ariz. Mr. Fletcher recently purchased the Weel-in-Bouvloidile lead-silver mine at Silver Hill, Mohave county, and will use the plant to treat the ores from the new property, which is also known as the Golden Quiver. There is a five-stamp mill at the mines, but the richest of the ore will be shipped to the new PAYS FOUR DOLLARS A SHARE ON smelter and the low grade ores will be

WOMAN'S CLUBS.

Redman had a practical paper on "Arbor Day."

Mrs. W. J. Washburn and Mrs. A. S. C. Forbes gave an illustrated presentation of many Old World scenes, and numerous local views, and combined with the views talks on the advantages to be secured in making the most of beautifying local surroundings. The beautiful sycamore clumps on Passed about 75 per cent. of this was sold to President avenue, and the stately live oaks in the streets of Garvansa, which have been saved through the efforts of the club women, were shown, as were also several views of sections where the billboards and the telegraph and telephone poles ran riot. Many ideas for beautifying what appear to be hopelessly unpicturesque surroundings were gleaned through the talks of these ladies, and views of what has been accomplished in various European cities.

SUGGESTED "QUO VADIS."

Roaring of Lions Greeted a Crowd of Evangelists on the Street Last Night, Raid on Chutes.

Amid the roaring of lions and un der the blaze of the electric lights at the entance to Chutes Park a band of cheerful Christians last night sang and prayed and exhorted.

It was bearding the lion in his den in the most literal sense, and brought vividity to mind the scenes depicted in "Quo Vadia," for as the Christians sang, the lions surely roared, and the crowd on an advent correct secret. sang, the lions surely roared, and the crowd on an adjacent corner jeered.

About fifty members of Memorial Baptist Church gathered at the corner of Washington and Main streets, Justafter dark and held a brief service at the door of a saloon. Their singing was good, and attracted the few persons who loitered in the neighborhood. The evening was cool and the Christians had the best of the crowd. The lions across the way in the Chutes Zoo, roared out the first time in the midst of the appeal of Evengelist Hall, and the young girls in the crowd cast suggestive, if not apprehensive, glances at each other.

As the evangelistic party marched away singing a hymn, an old African lioness joined in with a deep-toned and savage roar, which she continued long after their voices could be heard, as if angry that her prey had escaped.

BLUE RIVER COUNTRY

NCEASING CARNIVAL OF CRIME IN

Killing of Mexicans "by Persons Ua-known to the Jury" Goes Merrily ca.

TUCSON (Ariz.) Nov. 11.—The Blue River country, on the extreme eastern border of Arizona, is maintaining its reputation as the toughest section of the Southwest. It is traversed by a trail between Mexico and Colorado, which is a favorite route with those which is a favorite route with those account in some measure for the bloody record being made by this particular district, as evidenced in the many killings that have occurred there. Mexicans, and an occasional negro, turnish the chief targets for the guns of those who deem it their duty to stop the careers of alleged horse thieves and other criminais, and the large number of victims already on the records, together with the almost daily recurrence of hostilities, is making, the Blue River country a sort of death valley.

The Man of Millions.

We have two propositions for trans-contlnental travelers.

One is for the man of millions; the other for millions of men.

The "man of millions" proposition is this: The Overland Limited, which leaves San Francisco 10:00 a. m. daily, carries a through sleeping car for Omaha and Chicago via the Rock Island; connecting car from Los Angeles. Car lies over at Salt Lake City five hours, passes through the finest scenery of the Rockies by daylight, and at Denver is attached to the Rock Island's night express out of that city.

The "millions of men" proposition is the tourist car. We run so many that we can't even name them here. They leave Los Angeles daily via El Paso; Tuesday, Friday and Saturday via Colorado.

INT DIRECT WISE TO THE TIMES! SAN FRANCISCO, Nov. 11.-[Exclu-ive Dispatch.] Manager Gibbs of the sive Dispatch.] Manager Gibbs of the Colma Club announced last night that he has secured Sandy Ferguson and Jack Johnson for a "go" before his organization December 4. Yesterday he received a dispatch from Pierce, Ferguson's manager, in which the latter announced that his man would give Johnson a battle, and will start for this city tomerrow. If transportation is city tomorrow, if transportation is wired to him. Gibbs will wire the transportation and fetch Ferguson out

wired to him. Gibbs will wire the transportation and fetch Ferguson out at once.

Johnson appeared in the ring last night before the Britt-Sieger fight, and looked to be in fine shape. He wore his best smile and three of his finest diamonds. Experts here see nothing but Johnson in this fight, as they cannot believe Ferguson has gained enough in skill to outbox Johnson.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO. Nov. 11.—[Exclusive Dispatch.] Manager Billy Roche said today: "I freely admit that Britt is a much better man than I thought is a much better man than I thought sleger would have to meet. Up north sports told me that Rufe Turner was the better of the Native Sons. The battles my mun has fought with the pair proves to my mind that Britt can whip Turner more easily than he disposed of Sieger. The negro cannot stand the pace so well as Jimmy, and cannot punch near so declively. At the same time, I would like to arrange another mill between Sieger and Britt. I believe that the New Yorker was a triffe stale last night, and think that triffe stale last night, and think that when he is good and fresh he will be

when he is good and fresh he will be able, with his increased speed, to land oftener and harder than he did last night. If Britt and Gans ever come together at 132 pounds at the ringside, I believe the white man will win."

What makes Britt's victory the more decisive is that he fought the last six rounds entirely with his left. His friends thought he had broken his right, but he was simply saving it up for his fight with Canole on the 20th.

that go to make this game of swat an exhilarating one. It was a fine exhibition of the strenuous life and will be taiked about for many days.

The Looloos' batting was again the feature, and they promptly pulverised another of Mr. Eley's choice young pitchers, one Butier. In all but two instances they hit him with apparent ease, the exceptions being strike-outs on Hall and Raymond. Butler was really as bad off as Shields on Tuesday, but his loss of the game was due to the fact that the locals connected with him when hits meent runs.

The sensation of the day was a great stop and double play by Ross in the seventh inning. The thousand fans who saw the struggle cheered the little man all his heart could desire. Van Buren opened the seventh for the visitors with a sort of a bunt to right field. Dillon got the ball and tossed it at the first bag toward which Hall was running. It was a hard chance for the his blas londer and as he received the life.

play was heartily applauded, as it deserved to be.

The third feature of the performance occurred in the second inning, when Jake Thielman tried to knock down a house in the Chutes grounds with a home-run hit over the left fence. It struck the roof on which three boys were sitting watching the game, and then caromed and bounded many yards from the fence. Jake also received the glad hand for he is a mighty nice boy, as well as a fine pitcher and hard hitter.

His homer was the first run of the game, and the Portlands added two more to it in the next round. Anderson and Nadeau singled and after Freeman had fanned, much to his diaguat. Blake advanced the runners a base with another single. Then Prancis ceme to bat and after taking a "ood look at a couple of balls, selected the next one and smashed it to the right fence for a double, on which Nadeau and Anderson scored.

The locais didn't loosen up until the fourth, when singles by Wheeler, Smith and Cravath netted a run. They made two more in the sixth on Wheeler's shit and 'steal and Smith's double. With the score still in their favor the Portlands went into the eighth inning and cracked out another run on Blake's double, a single by Francis and Raymond's error of Thielman's grounder.

The Looloos, however, came right back with two more in their half, and thus evened the score. Hall hit on leasy grounder to Francis, and after on nice atop he made a bad throw to first and Hall ran on to second. He scored on singles by Hoy and Wheeler. Dunmy went to second on Wheeler's hit. to third on Smith's fielder's choice that forced Wheeler at second and scored on Dillon's hit to right.

These runs' tied the score and nothing resulted for either side in the tenth. These runs' tied the score and nothing resulted for either side in the tenth. The Portlands went through their half of the eleventh without doing a thing. Then Cravath, for the locals, set the pace with a single, stvanced on Ross's hit, went to third on Raymond's out at first and scored the winning run when spless scaked the ball for a hit through the infield. The fun was over, but it was either club's game at any time. ter.

Football.

The game that was to have taken place between Pomona College and St. Vincent College on Saturday has been postponed. If it is played at all it will probably be in this city on Monday, although it is unlikely, for the St. Vincent players say they have disbanded.

Basket Ball.

The young men of the Y.M.C.A. are working for the organization of a basket-ball league to be composed exclusively of members of the association. There will be five senior teams and four junior clubs, and these will play each other under certain handleap rules. Outside of the Y.M.C.A. there is very little doing in the sport.

OAKLAND OPENING RACE.

MANY ENTRIES KNOWN HERE. The next race of interest to horsemen on the Coast is the Opening Handicap at one mile to be run at Oakland next Saturday, and a lot of money will be wagered on the result by the sports of this city.

There are fifty-seven entries, and

while it is not likely that over twelve horses will start the number will be sufficient to provide a good field. Of the entries no less than ten raced here at the recent meet at Agricultural Park, and a winner may not unlikely

Park, and a winner may not unlikely be in that ten. These are Kenliworth, Solon, Horatius, Princess Titania, Warte Nicht, Bragg, Col. Van, Grail, Constellator and Ultruda.

Kenliworth has the top weight of all the horses, being asked to carry 119 pounds. Solon has 111, Horatius and Princess 107, Warte Nicht 108, Bragg 104, Col. Van 98, Grail 97, Constellator 35 and Ultruda 35. These look like small imposts to put on horses that performed so weil here on several occasions, and no one should be surperformed so well here on several oc-cusions, and no one should be sur-prised if one of these should win the race, for they are in condition after their visit here. Just why Graif should be let in with 97 pounds when she ran a mile here with 104 in 1:40%, is a hard question to guess, and to any dope student a bet on Grail should look good.

dope student a bet on Gran should look good.

Solon has a bad foot and should be out of it, and the distance is probably too far for Kenilworth with his weight. Warte Nicht is not right for a bruising race for blood, but the other light weights that raced here appear to have a swell chance on account of being in shape.

A number of local horsemen left here yesterday to take in Oakland's opening day and a number of others will go today and temorrow.

YOUNG CORBETT STARTS. (BY DIRECT WIRE TO THE TIMES.) NEW YORK, Nov. 11.—[Exclusive Dispatch.] "Young Corbett" is on his way to San Francisco, where he will defend his title of featherweight champion of the world some time next month against Eddie Hanlon, the best featherweight on the Coast, in a twenty-round battle. "Corbest" left the city today, accompanied by George Or-lando weeden, his backer.

Football Player Dying. NEW YORK, Nov. 11.—Raymond McVeigh. 18 years of age, a member of the Cadillac football team, lies at the point of death at his home in Brooklyn from injuries received in a game November 3. When he returned from Long Branch, N. J., where the game took place, there was a bruise over his right eye, but he did not complain. Several days later he was found unconscious on the floor of his bedroom, and grew rapidly worse. The doctors say his brain was injured, and he probably will die.

Full-back Disqualified.

PHILADELPHIA, Nov. II.—A. T. Smith, the University of Pennsylvania full-back, who played in the game against Harvard last Saturday, despite Harvard's protest that he was ineligible, was today disqualified by the faculty Athletic Committee.

Women Missionaries.

The disturbances in the East are not held to be sufficiently serious to call home our missionaries who have stations in Japan or in China near the Russian frontier. The women, married or unmarried, absolutely refuse to leave their work, and the men, who are in the minority, naturally remain with them. Our missionary societies cannot explain satisfactorily, even to themselves, why they send more young women than young men to convert the heathen people and lesser breeds without the law. It is not officially stated that the women are more successful than men, but they predominate, almost exceeding the men in numbers twofold.

In the Orient, including Japan and

most exceeding the men in numbers twofold.

In the Orient, including Japan and China, our missionary delegation is as follows: Japan, men, 22; married women, 25; China, men, 25; married women, 25; China, men, 25; married women, 25; unmarried women, 30.

With little protection, none save that of their sex and the few men in their, colony, the women missionaries are the most persistent in any field and the most faithful. They are last to leave in time of danger, and they are so thoroughly absorbed in their work in the cause of religion to an abandonment of the purpose which has called them forth from home comforts in their native land. Most of their are college girls, who with every chance for advancement in the place of their birth, have taken up the conversion of ravage people with a zeal which makes religious devotion unsurpassed.

In such crises as the present between Russia and Japan the missionaries. In such crises as the present between Russia and Japan the missionaries, women and men, are a mighty factor for peace. They wield a tremendous

that the Traction people have to combat now.

There is no attempt to call in these pass books. As fast as one is used up it is simply canceled, and the explanation given is that it is in pursuance of the general policy of the system.

The idea of the controlling board of the great network of street_railways is that, once commenced, the pass habit spreads worse than mumps or measles, with an impoverishing unfluence that cannot be checked. Passes were abolished on the Los Angeles and Pacific Electric railways immediately after Huntington took command—and now he has Huntingtonized the Traction end of his system in the same way.

Famous English Singers Arrived in Los Angeles Shortly Before Midnight from Australian Tour.

from Australian Tour.

Tired and ducty, but glad to get here, there arrived on the San Francisco train at 11 o'clock last night the Westminster Abbey choir, an organization of twelve eminent English singers who have just been touring Australia. After a rest here they will sing through Southern California.

This choir is one and the same arganization which furnished the special music and solos at the coronation of King Edward VII, and each member carries the coronation medal, pluned on his breast by the British monarch. Westminster choir, although it is an organization practically centuries old, has never before toured outside the United Kingdom. Their trip across the Pacific to California is made in order to give a series of concerts in the East, but Los Angeles will be the first city of the United States to hear them.

At the head of the choir is Branscome, the tenor. Another singer of repute is Coward, the male alto, who is called in his own country, "the Schumann-Heink of England."

LA PRENZA'S THRUST. W State Department has received a cablegram from United States Minister Beaupré at Bogota, dated November 9, in which he states that large crowds were parading the streets on the 8th inst., crying "Down with Marro-quin." There was a mass meeting de-nouncing the President and calling for a change of government. Hundreds gathered at the Palace, and the orator, a prominent general, called for the resignation of the President. The

was under the protection of the gov-ernment, but there were no manifesta-tions of hostile demonstration. The residence of Lorenzo Marroquin, (who is believed here to be a Senator and son of the President,) has been at-

COLOMBIANS REPORTED ACTIVE [BY THE ASSOCIATED PRESS-A.M.] PANAMA, Nov. 11.—{By South American Cable.} The United States gun-boat Concord, which left here yesterday afternoon, is said to be bound for Buena Ventura. The United States cruisers Boston and Marbiehead re-main here. The last news received at Panama from Buena Ventura was to the effect that the Colombian authorities were expecting an attack on that port from the direction of Panama; that they are building entrenchments, and that the Colombian gunbast Bogota was being stripped for action.

WASHINGTON, Nov. 11.-It is WASHINGTON, Nov. 11.—1t is stated here on authority that it is too late for Colombia to make any effort to resurrect the canal treaty with the United States, and beyond preventing a hostile clash between Colombia and

ington government that the report that Germany intended to become involved in the isthmian situation is entirely without foundation, and that nothing is knewn in Berlin of the intention of Colembia to appeal to Emperor Wil-liam for assistance, as was alleged in a recent interview by the Colembian Consul-General at New York. Mr.

Tower adds that he was further as-sured by the Foreign Secretary, in a most earnest and sincere manner tha the question of Germany's interfering information conveyed to our Ambass dor at Berlin was entirely voluntar on the part of the German governmen as the interview of the Colombia Consul-General at New York had bee ignored here. The action of the Berlin government is thoroughly appreciated by the Washington government, for, although it merely confirmed what the State Department already knew, the moral effect of the reiteration at this time of Germany's friendly attitude to the United States, it is thought, will

PARIS, Nov. II.—(By Atlantic Cable.)

Ambassador Porter called at the Foreign Office and had a long and agreeable conversation with Forcign Ministers of Justice and Palama. The discussion showel that a most harmonious accord of views existed between the two governments. The Ambassador took occasion to thank M. Delcasse for the friendly and sympathetic attifude of France.

The numerous informal conferences held between M. Delcasse and Gen. Porter have contributed largely toward insuring the French attitude of leaving the French attitude of leaving the United States untrammeled in connection with the Isthmian affairs.

W. Cromwell, American counsel for the Panama Canal Company, sailed

today for New York. During his stay
Cromwell held extended conferences
with the company, and he goes home
prepared to represent the company during the negotiation for a new canal
treaty. The company's officials have
announced their willingness to grant
an extension of time for the American
purchase of the concession, sufficient to
permit the negotiation and ratification
of another treafy. It is understood
that Cromwell is authorized to give assurances on the subject of the extension.

Another question considered was the Another question considered was the right to make a treaty with the Republic of Panama, under the present law specifically authorizing a treaty with the republic of Colombia. It is understood that the legal advisors of the company held that a treaty with Panama is authorized under the present law, as Panama succeeds to the sovereignty of Colombia. Moreover, they hold that the United States Sentic's ratification of the treaty with Panama will cure any possible defects of a treaty under the present law. GERMANY EXTENDS SYMPATHY. the loading has not kept pace with the increased capacity. The demand for cars is very great. If we can increase our loading two tons per car, it will have the practical effect of adding not less than 1500 cars to our equipment. In order that we may be in a position to furnish cars to take care of all business offering, and at the same time utilize our equipment to the best possible advantage; it is necessary that the question of loading be given close at-tention, and from the date of this cir-cular to June 30, 1904, to ten agents making the best showing in carloading, premiums based on one-third of one

month's malary will be given.

"Of the ten premiums, one will be awarded to agents on the El Pase division, four on the Houston division, two on the Victoria division, and three on the Texas and New Orleans and Galveston, Houston and Northern. ISLANDERS PETITION FOR AID.

(BT DIRECT WIRE TO THE TIMES.)

WASHINGTON, Nov. II.—[Exclusive Dispatch.] The Senste received today from the Chamber of Commerce at Honolulu a petition for aid in restablishing the coffee influstry in the Hawaiian Islands upon a profitable basis. The petition sets forththat several years ago, when coffee raising was first started upon the islands, it paid exceedingly well. Then there followed a decline in the price of coffee, and that made the business unprofitable. It is stated that were the wholesale price of coffee to be raised 4 or 5 cents a pound the industry would again become profitable in the Hawaiian Islands, and the coffee plantations there will furnish homes for those persons, who have not sufficient capital to engage in growing sugar cane.

The Hawaiians make no request for specific action on the part of Congress, but they suggest that if a hourst were a tracking to the republic of specific action on the part of Congress, but they suggest that if a hourst were a tracking to the republic of the republic of the properties of the defacts government to a discount of the properties of the defacts government to a discount of the properties of the defacts government to a discount of the properties of the defacts government to a discount of the properties of the defacts government to a discount of the properties of the defacts government to a discount of the properties of the defacts government to a discount of the properties of the defacts government to a decline in the price of coffee, and that the would mark the passage of the defacts government to a decline in the price of coffee, and that the would cable to default of the properties of the properties of the defacts government advising it not to all the properties of the properties of

The Hawalians make no request for specific action on the part of Congress, but they suggest that if a bounty were paid by the government upon Hawalian coffee, or else, a customs duty were to be imposed upon all coffee except Hawalian coffee, the difficulty would be solved, provided the duty or bounty were heavy enough to raise the whole-fale price of coffee about 4 or 5 cents per pound. BOSTON (Mass.) Nov. 11 .- [Exclu BOSTON (Mass.) Nov. 11.—(Exclusive Dispatch.) Announcement was made today that Clara Lyford Smith of the Los Angeles High School is awarded one of the competitive scholarships at Bryn Mawr College annually given in examinations for matriculations. These scholarships number eight, four of \$300 each, and four of \$300 each, apportioned among the sev-eral sections of country. One other scholarship went to the Pacific Coast to a Portland, Or., girl.

MILITIA IN THE SOUTH. WASHINGTON, Nov. 11.-[Exclusive Dispatch.) Fear that under the opera-tion of the new militia law, white men-may be compelled to serve under negro-officers, operates against the popular-ity and efficiency of National Guard or-ganizations in the South, according to the amulal report of acting Adjutant-General of the Army Col. W. P. Weil. the annual report of acting Adjutant-General of the Army, Col. W. P. Hall.
"In some cities of Virginia, Georgia and Louisiana," says Col. Hall, "the newspapers have prejudiced the minds of militiamen by distorted views. Pear is expressed in some Suthern communities that under the President's orders, white national guardsmen might be compelled to serve under colored commanders, and atili others believe that they are State troops, and should not be ordered for duty outside the Etate."

PATRONS OF HUSBANDRY.

PATRONS OF HUSBANDRY.

ROCHESTER (N. Y.) Nov. IL—National Master Jones, in his annual address to the National Grange, Patrons of Husbandry, stated that the growth of the order had been more rapid in the past year than ever before in its history. He urged the extension of nature-teaching in the public school. The national master recommends legislation for the further extension of free rural delivery, postal savings banks, the election of United States Senators directly by the popular vote of the people, giving Congress power to regulate corporations and combinations, enlarging the powers of the Interstate Commerce Commission, enactment of pure food laws, and a ship canal comnecting the Mississippi River and the great lakes.

GOVERNMENT TROOPS RESIST.

CAPE HAYTIEN (Hayti) Nov. II.—
[By West Indian Cable.] Further advices from Monte Cristi, Santo Domingo, from which place it was reported yesterday that the capital of that reyesterday that the capital of that re-public, Santo Domingo, had capitulated to the revolutionists and that Gen. Jim-ines had been proclaimed President, say that during the last hours of the fighting the city of Santo Domingo was threatened with bombardment as a re-sult of the resistance of the government troops.

troops.

A dispatch received in Paris last night from Cape Maytien announced that after three lays of fighting the President of Santo Domingo. Gen. Wos y Gil, took refuge in the German consulate at Santo Domingo. It was added that the revolution was considered to be at an end.

ITALY SENDING A CRUISER.

ROME, Nov. 11.—The Duke of Abrus-ROME, Nov. 11.—The Duke of Abrus-zi, commander of the Italian third-class cruiser Liguria, now at New-Orleans, has been instructed by the admiralty here to proceed to Santo Domingo, if the revolution there renders such a step necessary, for the protection of Italian subjects.

TROOPS FOR MUKDEN.

ST. PETERSBURG. Nov. 11 .- [By ST. PETERSBURG, Nov. 11.—[By Atlantic Cable.] A dispatch from Port Arthur received here in reference to the statement on the subject published in the foreign press says: "It is declared here that the four hundred troops ordered to Mukien were sent there solely for the purpose of restoring order. No other measures have been taken."

RUSSIAN CHANGES.
[BY THE ASSOCIATED PRESS—A.M.] TIEN-TSIN; Nov. 11.-Admiral Alex TIEN-TSIN; Nov. 11.—Admiral Alexieff, the Russian Vicercy of the Far East, leaves Port Arthur for St. Petersburg November 17.

Gov. Wogack of the Russian army is daily expected here. The report that the Rursian capital of the Far East is to be removed from Port Arthur to Vindivostock is unfounded.

TRINK DYEIAN WAS MURDERED CHICAGO, Nov. IL.—The friends of Roopan Dyeian, a young Armenian, who has been found dead in bed, are of the opinion that he has been murdered and class his death with the assassinations of Armenians which have been taking place of late in different parts of the old world. Dyeian was suffocated by the gas which escaped from an open jet in his room.

CITY OF MEXICO, Nov. 11.—It is rumored here, on what is considered good authority, that the Mexican Railroad Company of London is negotiating in Balitmore for the acquisition of the Vera Crus and Pacific Railroad. The road is said to be held at \$7,090,000 gold. It holds an important place as the connecting link between the railroads of Northern and Central Mexico and the Isthmus of Tehuantepec.

DRIED UP.

Coffee Was Drying Up Her Blood.

"Coffee had the peculiar effect on
me of thickening the blood and lessening it in quality, in other words
drying it up," says a young lady of
Shelton, Neb. "and so long as I used
the drug, coffee, I had terrific headaches frequently acompanied by sour
stomach and a very bad breath.

"My condition was serious and I
knew something had to be done so I
decided to quit coffee and drink Posturn. Coffee Was Drying Up Her Blood.

decided to quit coffee and drink Postum.

"A few days after I quit drinking,
coffee and shifted to Postum I felt
much better and continued to improve on the Postum until I am now
entirely free from hesdaches and
stomach trouble and steadily gaining
in flesh and health and feel happy and
full of rich, pure blood.

"My parents were ailing as long as
there were coffee drinkers. They
were certainly great coffee flends and
claimed that they could not get coffee
strong enough for them and my
father in particular was a regular
slave to coffee, drinking many cups
of it daily although he had terrifie
headaches about once a week, while
my mother complained of her liver
and took different liver remedies but and took different liver remedies

and took different liver remedies but all to no avail.

"Then I persuaded them to quit coffee and drink Postum Food Coffee and the result was all that I had hoped for and both are new hearty exters and are strong ar well. I know of many other cases where leaving off coffee and drinking Postum has resulted in wonderful changes in health." Name given by Postum Co. Battle Creek, Mich.

the exploitation of the gold fields promised important results, but the returns failed to compensate for the trying conditions under which operations were conducted and the attention of investors and promoters was turned to the development of the quinia industry, which, for a time, returned large profits. Overproduction soon followed the extensive operations in this field, and the rapid decline in prices paralyzed the industry.

It is said that the most promising prospect at present for successful investment and activity in agriculture is the development of the rubber industry, but here again the boundary dispute between Colombia, Ecuador and Peru make the enterprise of doubtful value, for the rubber tree forests of Colombia are in this disputed territory. The building of the canal at Panama would be the industrial salvation of that country, but open and secret influences are strenuous in preventing an; amicable arrangement whereby the canal can be built. It is doubtful, therefore, whether Colombia will improve her material conditions for many years to come.

CUBAN RECIPROCITY.

The President's message to the artra session of the Fifty-eighth Congress is a strong plea for the enact-ment of such legislation as is necesary to give force and effect to the Cuban reciprocity treaty. This treaty was ratified by the Senate, at the last and was subsequently ratified by the wision is for a reduction of 20 per cent. in duties levied on imports from Cuba, while Cuba makes considerably greater reductions of duty on many articles imported into Cuba

been insistent upon the establishment mort between the United States and Cuba, maintaining that our government was impliedly if not specifically pledged to make concessions of this kind to the new insular republic. In the beginning of the discussion, reductions were talked of, but the advocates of reciprocity finally agreed to the latter figures as a basis for the proposed

The Constitution provides that all revenue legislation must originate in the House of Representatives, and the latter body is rightfully jealous of any encroachment, or apparent encroachment, upon this prerogative. The treaty is essentially a revenue provides that, before it can become operative, a bill embodying its prowisions, originating in the House, must pass Congress. It is for the purpose of enacting this measure that both houses of Congress have been assembled in extraordinary session in advance of the regular session, beginning on the first Monday in December.

from Cuba by the action of the Congress of the United States, this gov ernment therefore definitely committed itself to the policy of treating Cuba as occupying a unique position wided that when the island became uld stand in such close relations respects to come within our system of international policy; and it necessarily followed that she must also to a certain degree become included within the lines of our economic policy. . . . This treaty, submitted to you for approval," continues the President, "secures to the United States economic advantages as great as those given to Cuba. Not at interest is sacrificed by the treaty; a large Cuban market is se cured to our producers. It is a mar ket which lies at our doors, which already is large, which is capable of great expansion and which is esgreat expansion and which is esof our export trade. It would be indeed shortsighted for us to refuse to take advantage of such opportunity and to force Cuba into making ar rangements with other countries to our disadvantage. This reciprocity treaty stands by itself. It is denational policy as well as by our economic interest. It will do harm to no industry. It will benefit many industries; it is in the interest of our people as a whole, both becau of its importance from the broad standpoint of international policy and because economically it intimately rich Cuban market for our farmers, atisans, merchants and manufactur-ers. Finally, it is desirable as a guarof the good faith of our nation toward our young sister republic, whose welfare must ever be closely bound with ours. We gave her lib-erty. We are knit to her by the memories of the blood and courage of our soldiers who fought for her in war; by the memories of the wisdom and integrity of our administrators who saved her in peace and who started her so well on the difficult

path of self-government,"

resty "will do harm to no industry" is the point in dispute; it is not con-ceded to be justified by those who have opposed the treaty, although the President's sincerity in making the statement is not questioned. It is held by its opponents that the treaty will do harm to a number of American industries, notably the bestsugar industry and the citrus-fruit industry, in both of which California is vitally interested. Whether the benefits which some other industries will offset the aggregate injuries

point which can be settled, probably, only by observing the actual operation of the treaty. Let the trial be of the country must prevail over As regards the President's idea that we are under obligations to make these concessions to Cuba, there are honest differences of opinion. It is held by many clear-sighted people that we have more than discharged

There is every probability that the proposed legislation to give effect to the Cuban reciprocity treaty will pass both houses of Congress without serious opposition. Such are the indications, according to latest advices tion in the thought that the oppoactuated in their opposition by conscientious motives, throughout the discussion. They have fought in what they believed to be a good cause. If, as it now seems, they have lost, they have nothing but that fact to regret. THE MORGANS.

The rumor carried by yesterday's dispatches that J. Pierpont Morgan had decided to retire from business life is now denied, but the report remained current long enough for the country to contemplate itself with the boss promoter eliminated from its ac-tivities. Editors and space writers were just preparing to fittingly chronicle "The passing of Morgan," nortraval of his sensational career from that time when it was supposed In his message the President de-clares that "when the acceptance of he had mortgaged the earth down to the hour when he toppled from his throne something like a discredited failure. But it seems that Mr. Mor-

gan is still to the fore. It isn't everybody who stops to think of it, but it is nevertheless a peculiar fact that some man by the name of Morgan has been to the fore ever since that patronymic had an existence. Beginning with old Plagius Morgan, who concocted a heresy as early as the fourth Christian century, the Morgans have been a stirring people. Atthough the name not an uncommon one, it is still far from being as much in popular as Jones Smith, Brown or even Robinson, while none of these clans are in anything like competition with the Morgans. There was Sir Henry Morgan, the buccaneer, who scourged the Spanish main over two and a half centuries ago; Gen. Daniel Morgan, who captured Tarleton, foot, horse and dragoons at Cowpens in 1781, and Gen. John Morgan, the raider, conspicuous for his successer in our Civil War. These are only a few of the tribe, recalled on the spu of the moment, but they are sufficient to show that the Morgans, good and

bad as they were, have generally taken a hand in things.

Even now, if J. Pierpont had drop ped out of the running, we would still have had the Hon. John Tyler Morgan of Alabama to contend And, anyhow, as it is, we shall soon be compelled to pay more or leeg at-tention to him. A Senator in Con-gress, he has attained wide fame and minence as a tireless advocate of ar sthmian canal. But it is said that he is preparing to make some strange moves now that the canal is in sight Let us hope the contrary. We would much rather see him in at the victory, for that would be more like him and the Morgans in general, who

as a rule, have been winners The young woman from Colorado who and the freedom of the city during the remainder of her stay in our midst

A NEEDED SAFEGUARD.

In a Washington dispatch of recent date it is stated that officials of the Department of Commerce, and especially those of the Bureau of Corporations (a branch of the department,) are convinced that "when the machinery of the new department gets in good working order the public will be saved from such financial flascoes as that furnished in the collapse of the United States Shipbuilding Company." It is certainly to be ed that this prediction will be verified. There is need for some such safeguard as that which, it is predicted, this department of the government will furnish. While it is true that not all the safeguards the prevent the unwise man from parting with his money unwisely, the strict supervision of corporate organiza ions which is contemplated will no doubt go very far toward preventing the exploitation of such fraudulen building Company, and this, in itself will be a valuable protection to the One of the principal objects for

which the Bureau of Corporations was organized was for furnishing pro tection against such disastrous failures as that of the shipbuilding concern. It is claimed by officials of the bureau that if it had been organized eighteen months sooner, it would probably have been possible to have given out public information which would have been of immense value to the minor stockholders of the shipbuilding trust, and in many individual ases would have saved them from uffering heavy loss. Unfortunately for these stockholders, the Bureau of Corporations had but just been formed when the Schwab shipbuilding concern began to show signs of its inherent weakness, preluding the final crash which resulted so disastrously. It was impossible for the government, at so late a day, to do anything to protect the unfortunate investors. But in the nuture, it is claimed, the government supervision of corporations engaged in interthorough that such stupendous swin-dles as that of the United States Shipbuilding Company will be vir-

tually impossible. is altogether probable that Schwab and the other promoters of the shipbuilding swindle have covered their tracks so thoroughly that with the punishment which they richly deserve. This is much to be remedy in aggravated cases of this lars is promptly arrested, tried, con-(as he ought to be) for a term of years. But the man who can manage to steal several millions of other people's money, in some stock-juggling device which adroitly keeps within the letter of the law, escapes scot free. This is manifestly not as it should be, but the remedy is not apparent. If such a thing should happen in China, the principal proters of the swindle would be promptly taken out and beheaded But then China is a "heathen" cour try, and such punishments as she inflicts upon malefactors could not, of course, be tolerated in this enlightened and free Christian land Still, candor compels the admission that the heathens do some things bet-

The mob has just awakened at sogota, as it would seem, to the fact that Colombia has not only lost the canal, but Panama country through which it is proposed to dig the ditch. As a consequence, the mob is real mad and is parading the stree shouting, "Down with Marroquin," the sail Mr. Marroquin being the President of that country which which has been endeavoring, for some time past, to work a graft with the United States of America in conection with the construction of the aforesaid waterway between the oceans that wash the easterly and westerly coasts of this hemisphere. It is not surprising that the Colombian multi-tude is provoked and ugly. It has a kick of large size coming to it. And should it do violence to the alleged statesmer who have been doing so many unstates wick it is no more than they have reason to expect.

An association for the suppression of boycotts in this country, one of which is in process of formation in the city of New York, is certainly something in the nature of a long-deferred want. As for Los Angeles, it man-ages fairly well to take care of its own boycotts and boycotters; but there are other places where the vandal of proscription and the height of impu-dence need sitting upon with a dull and sickening thud. An early visit of board of suppression, of the as-iation, should be made to the city of San Francisco, where the boycotter lourishes in all his native offensive-

TWO FROGS-AND A MORAL TWO FROGS—AND A MORAL.
In a big, deep well,
So the gossips tell,
Near a road by a thrifty farm,
Two builfrogs thrived,
And splashed and dived,
With never a thought of harm;
They blinked and croaked,
And sang and joked,
As all good froggies do,
And life was gay
As a June-time day,
And troubles were mighty few.
